

Deer Creek High School provides an outstanding environment for baseball. The facilities that are available to the athletes and coaches are some of the finest in the state of Oklahoma.

John Hundley Field, located on the west side of campus, is one of the best in the state. It was voted field of the year by the Oklahoma Baseball Coaches Association in 2009. This facility has hosted several regional and state championship events for the Oklahoma Secondary Schools Association. The playing surface is Patriot Bermuda grass with Rye grass over seed each fall. The 1000 seat stadium (2006) has a great view of the field no matter where you sit. The new lighting system (2005) makes playing at night a great atmosphere for all players and spectators. All of these renovations have been made since 2001 season and they make it an awesome experience to play or watch high school baseball in the state of Oklahoma.

Deer Creek Indoor Facility: Located directly behind the 1st base dugout of John Hundley Field, this indoor facility was completed the fall of 2002. The building is 7000 sq. ft. with two 50 ft. cages and one 70 ft. cage. All cages are on cables that slide to the walls for maximum arena space.

Weight Room: Also completed in 2002 the weight room is located just east of the indoor building. This structure is 5000 sq. ft. and provides an awesome opportunity for athletes to get stronger and faster for their individual sports.
